SUMMARY

Java developer with 8+ years in banking and fintech: mobile and internet banking, payment systems and integrations (Uzcard, Humo, Paynet, Wolt, government services). Led teams of up to 6 engineers, designed architecture and secure REST APIs, owned releases and code reviews. Core stack: Java 21, Spring Boot 3, Spring Cloud, PostgreSQL, Oracle, RabbitMQ, Docker.

EXPERIENCE

Ipotekabank OTP Group · Head of Development Team

January 2024 — December 2025

Tashkent · Banking

Omnichannel Department

- OpenAPI / DiBank, corporate client integration: REST APIs for legal entities and corporate clients; code optimisation, updated security and tokenisation architecture; integration between CRM and internal banking services.
- Wolt integration with the international food-delivery service: payment acceptance and processing through the bank's system; connectivity between internal systems and the partner API; real-time monitoring and logging of financial operations.

Integration Department

- MinStroy, escrow-account integration with the Ministry of Construction: services automating residential and commercial property deals; creation and maintenance of escrow accounts between the bank and state bodies; REST notifications and confirmations.
- KATM, two-way integration with the credit association: automatic submission, processing and status tracking of credit applications; data security and validation; RabbitMQ queues for asynchronous processing.

Tech: Java 21, Spring Boot 3.x, Spring Security, Spring Data JPA, RabbitMQ, PostgreSQL, Docker, Swagger 3.0 / OpenAPI, GitLab CI/CD

REALSOFT · Head of Development Team

September 2022 — December 2023

Tashkent · realsoft.co

- Led the development of RealPay, the company's internal payment system, launched under my technical leadership; team of 6 (3 backend, 3 frontend).
- Uzcard and Humo integration for payments and card-to-card transfers.
- Connected 10+ internal projects used by government institutions to RealPay, including kindergarten and online-learning payments.
- Architecture design and secure REST APIs for service-to-service communication; release control, code review and microservice integration.

Tech: Java 17, Spring Boot 2.7+, Spring Security, Spring Data JPA, REST API, PostgreSQL, Redis, RabbitMQ, GitLab CI/CD, Swagger

EPAM Uzbekistan · Software Engineer (Java Developer)

January 2022 — December 2023

Tashkent

Project: EPAM Certification System, an internal platform automating engineer certification

- Backend in Java 17 / Spring Boot 2.x; design and implementation of REST APIs for the exam, user and results modules.
- Integration with external services (LMS, email gateway, notification service); RabbitMQ messaging.
- Performance optimisation, refactoring, technical documentation and code review; participation in architecture and CI/CD design (GitLab CI, Docker, Kubernetes).

Tech: Java 17, Spring Boot 2.x, REST API, RabbitMQ, GitLab CI, Docker, Kubernetes

Tune Consulting · Java Developer

January 2020 — November 2021

Tashkent

- Apelsin (Kapital Bank), mobile banking ecosystem: CRM and backend logic of the dashboard module; transaction, transfer, payment and bonus services; REST APIs for Android/iOS clients and external systems; P2P transfers; rapid launch of online card ordering with home delivery during COVID-19; integration with the bank's Auth, Account and Transaction microservices. Java 11, Spring Boot 2.x, Spring Security, Spring Data JPA, PostgreSQL, Redis, Swagger 2.0, Git
- Apelsin Marketplace, a trading platform integrated with banking services: backend logic for catalogue, cart and checkout; microservices (catalogue, orders, payment) integrated with the bank's payment system. Java 11, Spring Boot 2.x, Spring Cloud (Config, Discovery, Gateway, OpenFeign), PostgreSQL, Redis, Elasticsearch
- Kapital24, internet banking for individuals and businesses: personal and business account APIs, payment gateway integration, SQL optimisation and operation security. Java 8, Spring Boot, Spring Security, Spring Data, Oracle, ActiveMQ, Swagger 2.0
- E-commerce (Orient Finance Bank), online payment integration platform: payment gateway modules and transaction processing logic. Java 11, Spring Boot 2.x, Spring Cloud Gateway, PostgreSQL, MongoDB, Swagger 2.0

Tashkent · Banking

Project: DavrBank Mobile App, retail mobile banking (payments, transfers, account management)

- Backend in Java / Spring Boot; REST APIs and documentation for the Android and iOS teams.
- UzCard and Humo integration (payments, P2P transfers) and Paynet services; integration with the NCI core banking system.
- Test environment setup and SQL query optimisation.

Tech: Java 11, Spring Boot 2.x, Spring Security, Spring Data JPA, REST API, Oracle Database, Swagger 2.0, Git

MIRONSOFT · Java Developer (Junior Software Developer)

September 2017 — March 2019

Tashkent

- Ijod Fondi, accounting and automation system for the creative fund's organisations: payment and accounting modules; automated tax-benefit calculation; SQL performance.
- UzAgroExpertBank, document workflow automation: internal workflow modules, document routing and approval statuses; maintenance and refactoring.

Tech: Java 8, Spring MVC, Spring Core, PostgreSQL, Git

EDUCATION

Tashkent University of Information Technologies

Bachelor's degree — Computer Engineering (Computer Systems)

2017

LANGUAGES

Uzbek — native · Russian — C2 · English — B2 · Turkish — B2

WORK FORMAT

Full-time · on-site, remote or hybrid · Tashkent

PERSONAL QUALITIES

Communicative, fast learner, adapts quickly to new tasks; goal-driven, responsible and result-oriented; proactive and effective in a team; committed to continuous professional growth.

SKILLS

Backend: Java 21, Spring Boot 3.x, Spring Security, OAuth2, Spring Data / JPA / JDBC, Hibernate

Microservices: Spring Cloud (Config, Discovery, Gateway, OpenFeign, Routing), RabbitMQ, ActiveMQ

API: REST, SOAP, JSON, XML, Swagger / OpenAPI

Databases: Oracle, PostgreSQL, MySQL; NoSQL: Redis, MongoDB, Elasticsearch

Servers & tools: Apache Tomcat, NGINX, Docker, Kubernetes, Git / GitHub / GitLab CI/CD, Maven / Gradle

Frontend (basic): React.js / Vue.js, HTML5, CSS3, JavaScript

COURSES & CERTIFICATES

2022 · LinkedIn Learning — Spring: Spring Cloud · Microservices: Design Patterns · Microservices Foundations · Java Memory Management · Spring 5.0 and Spring Boot 2.0 New Features · Creating Your First Spring Boot Microservice · Spring Microservices

2021 · QDTS — IBM Business Automation Workflow V19.0.0.1

2021 · SoloLearn — Java, Kotlin, SQL, Python, HTML/CSS, JavaScript, jQuery, React + Redux, PHP

2019 · PDP IT Academy — Full Stack Web Development (Spring Boot)

2016 · TUIT — Software contest for learning and enhancing foreign languages

2015 · BePro IT Academy — Java, Oracle, Windows Server, ITIL v3
